

Video Rotating Box

Product Specifications

Model: RDS-5870

I. Product Overview

Video Rotating Box supports maximum resolution of 4K@60Hz HDMI 4:4:4 input with HDCP 2.2 compliance. It outputs 1920x1080@60Hz to one HDMI port. Users can select different rotation modes via the remote control. This product is a high-definition image rotation box specifically designed for LCD TVs, ultra-narrow bezel LCD screens, and projectors. When connected to an LCD TV or other display device, it can rotate images to various angles according to user requirements.

II. Features

1. This product is a high-definition image rotation box specifically designed for LCD TVs, ultra-narrow bezel LCD screens, and projectors. When connected to an LCD TV or other display device, it can rotate at various angles according to user requirements.
2. The product supports cascading, enabling up to 255 signal outputs.
3. Equipped with a high-definition processing chip, it supports 1080P and 4K signal input and 1080P signal output.
4. Designed with infrared remote control, enabling one-touch quick control and full-function operation via remote for simplified convenience and expanded functionality.

5. Supports simultaneous input from 2 HDMI ports and 1 DisplayPort. All input signals can be switched to the large screen for rotated display.
6. Supports audio input/output with synchronized audio-video output.
7. Supports arbitrary screen rotation at 90°, 180°, or 270 degrees, along with horizontal and vertical mirroring/flipping.
8. Enables remote operation via infrared remote control, allowing full configuration, switching, and adjustment of the vertical screen rotator. The ultra-sensitive remote features direct mode switching via numeric keys 0-9 for enhanced convenience.
9. Supports windowed display modes: 1P, 2PLR, 2PTR, PIP, and 4P. Multiple input signals can be freely combined in windowed mode. This feature is unavailable in rotation mode.
10. Incorporates intelligent thermal control protection technology for stable, reliable, and long-lasting heat dissipation.
11. Features black border cropping technology to eliminate visible borders around images.
12. Supports 0° landscape and 90° portrait non-standard tiling configurations, enabling the creation of ultra-large custom video walls through modular assembly.

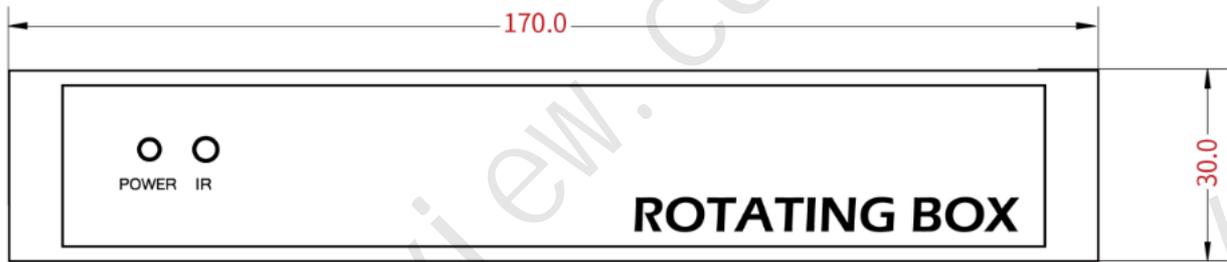

III. Technical Specifications

Category	Name	Specifications
Input Signal	HDMI 1	HDMI 1.4 with embedded audio; Supports resolutions from 640×480 to 3840×2160@30Hz
	HDMI 2	HDMI 2.0 with embedded audio; Supports resolutions from 640×480 to 3840×2160@60Hz
	DP	DP 1.2 with embedded audio; Supports resolutions from 640×480 to 3840×2160@60Hz
Output Signal	HDMI	HDMI output resolution supports up to 1920×1200@60Hz
Audio Output	Audio 3.5mm	Audio interface, supports stereo L/R channels, synchronized audio/video signal switching
Other	Power Supply	DC 12V-1.5A
	Power Consumption	10W
	Control Method	IR Remote Control, RS232

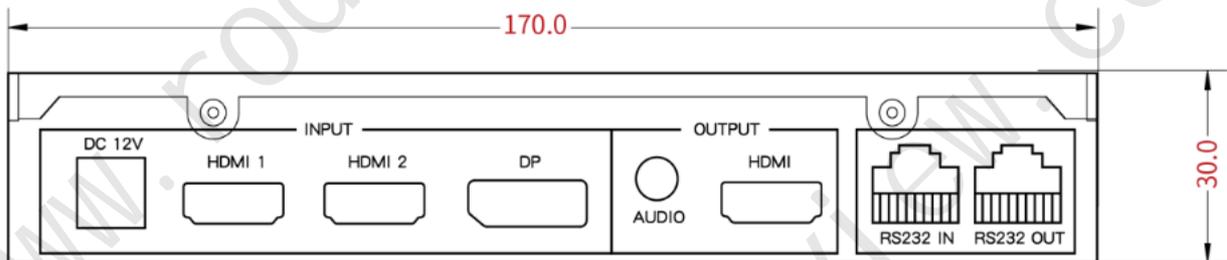

Video Rotating Box

Physical Specifications	Net Weight	0.6Kg
	Gross Weight	0.9Kg
	Dimensions (L×W×H)	170 × 138 × 30 mm
Packaging Information	Dimensions (L×W×H)	275 × 220 × 70 mm
	Package List	1 × Main Unit; 1 × Remote Controller; 1 × Power Adapter; 1 × Product Warranty Card

V. Panel Buttons and Port Descriptions

1. Front Panel Button Functions

No.	Button Name	Description
1	POWER	Indicator light (Green light on indicates normal operation)
2	IR	Infrared (Receives infrared signals)

2. Rear Panel Port Descriptions

	No.	Interface	Description
INPUT	1	DC 12V	12V DC Power Input
	2	HDMI 1	HDMI 4K@30Hz Signal Input
	3	HDMI 2	HDMI 4K@30Hz Signal Input
	4	DP	DisplayPort (DP) 4K@60Hz Signal Input
OUTPUT	5	AUDIO	3.5mm Audio Jack (Stereo L/R Channel Output)
	6	HDMI	HDMI Output
	7	RS232 IN	Serial Port Input
	8	RS232 OUT	Serial Port Output
